

EXCLUSIVE

WRINKLE-FILLING SKINCARE

Drawing inspiration from high-performance dermatological procedures and the latest cosmetic surgery techniques, LIERAC Paris innovates with an unprecedented wrinkle-filling system that combines pure hyaluronic acid and the B-Relaxor Complex® (Argireline® + Genistein®) to enhance and maintain the results of in-office injections and fillers.

RECOMMENDED FOR

- Expression lines and deep wrinkles
- Enhancing and maintaining the results of professional procedures

PRODUCT AND PRICING

EXCLUSIVE ACTIVE SERUM (30ml pump)-MSRP \$98 USD

EXCLUSIVE ULTRA DAY CREAM (50ml jar)-MSRP \$90 USD

EXCLUSIVE INTENSE NIGHT CREAM (50 ml jar)-MSRP \$98 USD

EXCLUSIVE PREMIUM (50 ml jar)-MSRP \$145 USD

ACTIVE INGREDIENTS

The wrinkle-filling system:

PURE HYALURONIC ACID

A natural occurrence in the dermis, its water-absorption abilities and large molecular structure allow the epidermis to achieve greater suppleness, smoothness, and elasticity. This acid can bind up to 1,000 times its own weight in moisture.

+

B-RELAXOR COMPLEX®

This high-tech ingredient works to combine 2 active ingredients: a botulinum toxin-like compound, the patented Argireline® diminishes the appearance of expression lines by smoothing out the skin, and Genistein®, a filler-like active ingredient which stimulates the hyaluronic acid production to plump and fill in deep wrinkles.

RESULTS

Day after day, the appearance of wrinkles is visibly diminished. Facial features look more rested; skin appears plumped up, denser, smoother and visibly more youthful-looking.

Complete product information, clinical studies and samples available upon request.
